

Ad Samplers are our Online Webstore or eBlast Marketing packages available exclusively through [Web 'n Retail](#) (a division of [Rock 'n Retail, LLC](#)); from our network of 30 established Indie Record Retailers. Each participating Retailer operates at least one Brick & Mortar store and a FULLY-OPERATIONAL webstore.

The Ad Sampler packages are GENRE SPECIFIC and include only those stores that excel in sales of a given genre (some of our stores are VERY specialized). Ad Sampler packages consist of anywhere between 5 and 16 Retailers' Webstores or eBlasts. For example, one of our 5 Retailer Ad Samplers provides you 20 electronic ads, sale pricing, and record reviews; one of our 16 Retailer Ad Sampler package provides you with 31 electronic ads, sale pricing, audio & video players. All ads link to the point of purchase (Buy It Now Page) on the Retailers' websites.

We have 54 genres of packages to choose from. The most common genres are found on our website – [AdSampler.net](#); in "[Packages & Prices](#)". If you have a release that is outside the genres listed, please [use this form](#) to email us about your release and we will e-mail you the appropriate Ad Sampler package information for your genre.
